

Mohit Agrawal

Indore (M.P.), India | mohitagrawal2212@gmail.com | 9111666332 | [LeetCode](#) | [LinkedIn](#) | [Github](#)

Technologies

Languages: C++ (Advanced), Python, Java, JavaScript, SQL
Frameworks & Libraries: MERN Full-Stack, Django, Flask, TensorFlow, PyTorch, PyQt5
Databases & Tools: MySQL, Git, AWS, Jupyter Notebook

Experience

IBM | Generative AI Intern May 2025 – July 2025

- Prompt Engineering & Optimization:** Engineered a Generative AI solution by implementing advanced prompt engineering techniques to fine-tune model outputs for specific enterprise use cases.
- Technical Evaluation:** Achieved a top-tier final evaluation score of 99/100, demonstrating a strong architectural command over AI concepts and practical implementation strategies.

Projects

Smart Agro-Assistant (AgriScan) | *Python, TensorFlow/PyTorch, Flask, OpenCV*

- Machine Learning Architecture:** Architected a comprehensive machine learning platform integrating Convolutional Neural Networks (CNNs) to autonomously diagnose 15+ plant diseases from image datasets.
- Predictive Analytics:** Engineered predictive modules for crop recommendation and market price forecasting, streamlining agricultural decision-making and currently tracking toward a successful mid-stage technical review.

LeetCode Clone | *MongoDB, Express.js, React.js, Node.js, Django, MySQL*

- System Design & Execution:** Constructed a scalable full-stack coding platform replicating core competitive programming features, supporting real-time C++ and Python code execution.
- Resource Containerization:** Orchestrated isolated code execution environments utilizing Docker containerization to ensure system security, prevent resource leakage, and handle dynamic user inputs.

Chemical Data Visualizer (FOSSEE Task) | *React.js, Django, PyQt5*

- Hybrid Application Development:** Designed and deployed a hybrid web and desktop application engineered as a screening solution for a FOSSEE initiative.
- Data Visualization:** Streamlined the rendering and visualization of complex chemical equipment metrics, ensuring a seamless user interface across different operating environments.

Education

Vellore Institute of Technology (VIT University) Aug 2023 - Aug 2027
• Bachelor of Technology in Computer Science - CGPA: 8.05
St.Joseph's School, Indore
• CBSE XII (2023) - CBSE - 77% || CBSE X (2021) - CBSE - 91%

Achievements & Certificate

- Competitive Programming:** Solved 250 problems on LeetCode (ID: [m041t2212](#)) using C++, with a strict focus on optimizing time and space complexity.
- Security Certification:** Completed the IBM Virtual Certification in Data Encryption, mastering key cybersecurity, data protection protocols, and encryption standards.
- IT Infrastructure:** Currently pursuing the Google IT Support Professional Certificate to strengthen foundational knowledge in system administration and networking.
